About Us

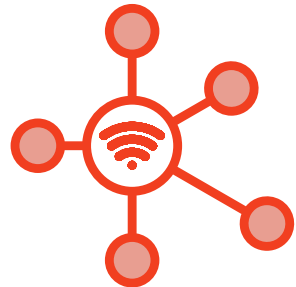

Qhumana Communications is a dynamic, 100% black-owned and managed ICT solutions provider, committed to enabling organizations through innovative, reliable, and scalable technology services. With over two decades of combined industry experience, we specialize in delivering integrated networking, telecommunications, and infrastructure solutions tailored to both public and private sector clients.

At our core, we are a technology partner that bridges the gap between business needs and digital capabilities. We design and implement end-to-end solutions that enhance operational efficiency, strengthen security, and support long-term growth. Our expertise spans across network engineering, structured cabling, fibre optic deployment, unified communications, and enterprise IT architecture.

We pride ourselves on our ability to understand each client's unique environment and provide customized solutions that are both cost-effective and future-ready. By leveraging globally recognized technologies and best practices, we ensure that our clients remain competitive in an increasingly digital world.

Qhumana Communications is not only focused on delivering technical solutions but also on building lasting relationships. We work closely with our clients as trusted advisors, ensuring continuous support, knowledge transfer, and value delivery at every stage of engagement.

Vision & Mission

→ Vision

To be a leading and trusted ICT solutions provider in Africa, recognized for driving digital transformation, enabling business growth, and delivering innovative, future-ready technology solutions that create lasting value.

→ Mission

Our mission is to empower organizations through reliable, scalable, and high-performance technology solutions by:

- Delivering tailored ICT services that enhance operational efficiency and business performance
- Providing secure, resilient, and future-ready infrastructure with minimal disruption
- Building long-term partnerships based on trust, transparency, and consistent value delivery
- Continuously adopting and integrating emerging technologies to stay ahead of industry trends
- Investing in skills development and knowledge advancement to better serve our clients

Our Services

1. Network Infrastructure & Cabling Solutions

We deliver reliable and high-performance infrastructure

- IP Network Structured Cabling Installation
- Installation of Telephony and Faxes Cables
- Computer Cabling and Relocations
- Call Centre Voice and Data Infrastructure
- Compilation and Maintenance of PABX database
- All Category Data Installations
- Include the full category suite of structured cabling

- Installation and Splicing of Fibre Optic Cable

2. IT & Network Services

- LAN & WAN Auditing
- LAN & WAN Planning, Design and Implementation
- Security Audit
- Security Design and Implementation
- Unified Communications and Contact Centre Solutions
- LAN & WAN Network Optimization
- Data Centre Design
- Network Monitoring and Management
- VPN Solutions – Interconnecting Branches Securely over the Internet
- Network Convergence Solutions

3. Unified Communications & Collaboration

We design and implement integrated communication solutions that enhance collaboration and productivity. This includes VoIP systems, IP telephony, contact centre solutions, and unified communication platforms that streamline internal and external communication.

Our Services

5. Network & Security Solutions

Security is embedded in all our solutions. We provide comprehensive security assessments, HD CCTV technology, smart IP based systems, access control design hardware, and implementation of secure 3D facial network architectures, VPN solutions, and monitoring systems to protect critical business data and infrastructure.

6. Managed Services & Support

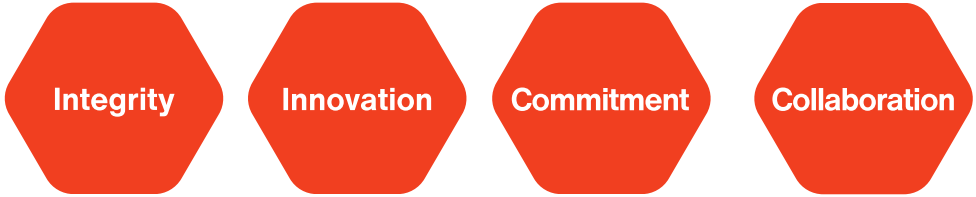

Qhumana Communications offers ongoing support and managed services to ensure business continuity. Our 24/7 support centre handles fault resolution, system monitoring, maintenance, and technical assistance, ensuring minimal downtime and optimal system performance.

Our Core Values & Responsibility

→ Core Values

→ Corporate Responsibility

From a corporate responsibility perspective, we uphold the highest standards of governance, integrity, and compliance in all our operations. We are dedicated to delivering reliable and secure ICT solutions while ensuring transparency, accountability, and ethical business practices. Our approach is centered on building trust and maintaining long-term relationships with our clients through consistent value delivery and service excellence.

→ Social Responsibility

In terms of social responsibility, Qhumana Communications actively supports initiatives that promote skills development, education, and empowerment within the ICT sector. We are passionate about developing local talent by providing training, mentorship, and opportunities for growth, particularly for previously disadvantaged individuals. Through our expertise, we also contribute to bridging the digital divide by enabling access to modern technology infrastructure.
